

On Target

WITH NEWSPAPERS IN EDUCATION:
AN INTRODUCTION TO ARCHERY

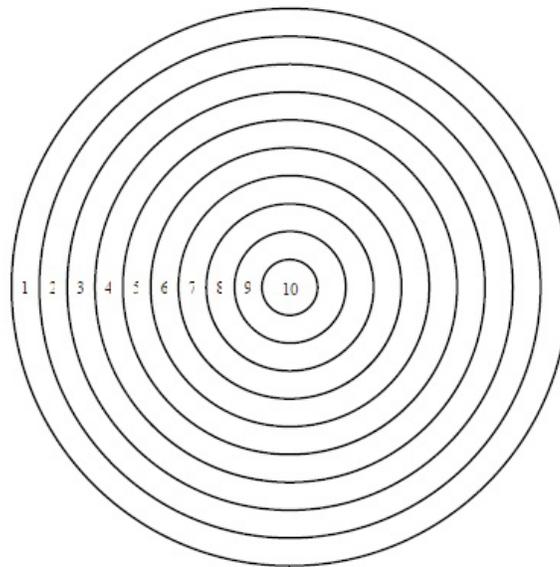

In partnership with the Missouri Department of Conservation, Newspapers in Education is exploring archery. Archery is a sport that does not discriminate based on athletic skill, gender, size or academic ability. It's open to everyone!

Through archery, students learn focus, discipline, patience and the life lessons required to be successful in the classroom and in life.

National Archery in the Schools Scoring

After each End of arrows, the target should have 10 arrows in each face.

Five will be the same color for STUDENT 1; five will be a different color for STUDENT 2.

Scoring is from 1 (outside ring) to 10 points for the inner yellow ring. Anytime the arrow cuts the line of the next higher score – the higher score is awarded. If an arrow touches a line, it is counted as the next higher score. If the arrow is outside the total target circle or misses entirely, it is a zero.

Arrows that hit the target and bounce off should be left blank and then after all shooting is over, students will be allowed to shoot again for “bounce outs.” No scorer should pull arrows until after they are scored and marked on the score sheets.

AN INTRODUCTION TO ARCHERY

In partnership with the Missouri Department of Conservation, Newspapers in Education is exploring archery. Archery is a sport that does not discriminate based on athletic skill, gender, size or academic ability. It's open to everyone!

Upon completion of the final round, scorers check the accuracy of the scores and then sign the scorecard before turning them in to the scorer's table. See below for an example of a student's scorecard.

NAME: Bill Smith						Date: 2/12		
Gender: M F Male		GRADE LEVEL: <u>7</u>				Shooting Lane: <u>6</u>		
10 M. ENDS	1	2	3	4	5	End Total	Running Total	X
	7	8	9	10	10	44	44	2
	9	9	6	10	8	42	86	1
	10	9	8	9	10	46	132	2
TOTAL SCORE							132	5
15 M. ENDS	1	2	3	4	5	End Total	Running Total	X
	7	8	9	10	10	44	176	2
	10	9	6	10	9	44	220	2
	6	8	9	10	10	43	263	2
TOTAL SCORE							263	6
OVERALL TOTAL SCORE							263	11

WRITING CONNECTION: Bill is excited about joining an Archery Club. He wants to be on a competitive team but knows he will need to practice in order to improve his skills and reach his goal.

List two important principals of practice to be considered when practicing any sport. How can Bill apply these principals to improve his skill level?
